Folks, there is no substitute for sound medical consultation of serious medical conditions. We have many medical offices who love our products, but that is not meant to suggest your physician would approve, so check with him or her if you have any questions about any medical condition! We make no claims about the following testimonials, other than to say they are actual letters we have on file at NATR.

I wanted to let you know how great I think this product is. My chiropractor gave me a sample last year for my skin. I am a long time sufferer of psoriasis (since 1987), and this product has given me more relief than anything I have ever tried before. I now recommend your product online, and by word of mouth, to other people who are afflicted. I even walk up to strangers that I see with this affliction, just to tell them about your product.

Keep up the good work. Thank God for your product. Love it.
